Professional Summary

Full Stack Developer with 2+ years of professional experience building end-to-end web applications using React.js, Next.js (App Router), Node.js, and PHP/Laravel. Skilled across the full stack: React Server Components, component-based frontend architecture, state management with Redux Toolkit, RESTful API design and integration, and backend development with Node.js and Laravel. Experienced building type-safe data layers with Drizzle ORM over serverless Postgres, designing database schemas and migrations, implementing authentication and authorization (JWT, OAuth, session management), and integrating Stripe payments end-to-end from checkout to webhook-driven order fulfillment. Proven track record delivering SPA, SSR, and SSG solutions with strong Core Web Vitals, WCAG accessibility, responsive design, and internationalization (i18n) with RTL support, from database and API design through to production-ready, deployed applications.

Professional Experience

Full Stack Developer

06/2024 – Present

Exabyte LLC

Cairo, Egypt

- Architected and developed responsive user interfaces for 5+ production applications including Temry Market e-commerce platform and Learnu Learning Management System using React.js, Next.js App Router, React Server Components, Ant Design, and Tailwind CSS, serving 10,000+ active users
- Integrated RESTful APIs with Axios and React Query for server state management, implementing authentication flows, data fetching strategies, caching, error handling, and optimistic updates, reducing API calls by 30%
- Developed mobile-first responsive layouts using CSS-in-JS, Flexbox, and CSS Grid ensuring consistent UI/UX across all devices, adhering to WCAG 2.1 accessibility standards including ARIA attributes and screen reader compatibility
- Translated Figma and Adobe XD design prototypes into pixel-perfect, production-ready web applications using atomic design methodology while maintaining strict design consistency and brand guidelines across 15+ pages
- Enhanced application performance by implementing code splitting with React.lazy, lazy loading, dynamic imports, image optimization with Next.js Image component, and Core Web Vitals monitoring (LCP, CLS, FID), resulting in 50% improvement in scores and 25% increase in user engagement
- Collaborated with cross-functional teams of 8+ members using Git, GitHub, pull requests, code reviews, GitHub Actions CI/CD pipelines, and Agile/Scrum methodologies including daily standups and sprint planning

Technical Projects

Temry Market | E-commerce Platform with Admin Portal

Live — temryshop.com

- Built comprehensive e-commerce solution with user-facing storefront and administrative dashboard, implementing product catalog with 500+ products, shopping cart, checkout flow, and order management system
- Integrated Stripe payment processing and real-time inventory management with backend APIs
- **Tech Stack:** React.js, Tailwind CSS, Ant Design, RESTful APIs, PHP, Laravel

PizzaCraft | Full-Stack Restaurant Ordering & E-commerce Platform

Live — pizza-craft-virid.vercel.app

- Built a full-stack restaurant ordering platform with Next.js App Router and React Server Components, featuring a filterable product menu, product detail pages, shopping cart, favorites/wishlist, and time-limited combo deals with a live countdown timer
- Implemented end-to-end authentication with Better Auth (email/password and social sign-in, sessions, and protected routes) over a type-safe Drizzle ORM data layer backed by Neon serverless Postgres, including schema design and versioned migrations
- Integrated Stripe Checkout for secure payments with webhook-driven order confirmation and status updates, plus bilingual internationalization (English/Arabic) with full RTL layout support and a persistent dark/light theme
- Optimized Core Web Vitals using the Next.js Image component, CDN-hosted assets, route-level code splitting, and server-side rendering, deployed through a CI/CD pipeline on Vercel
- **Tech Stack:** Next.js (App Router), React.js, TypeScript, Tailwind CSS, Better Auth, Drizzle ORM, Neon Postgres, Stripe, i18n (RTL), Vercel

Learnu | Learning Management System

Live — exabyte-eg.com/learnu

- Developed full-featured LMS for engineering courses with course management, student enrollment system for 200+ students, progress tracking, and instructor dashboard with analytics
- Implemented responsive design patterns and WCAG accessibility standards ensuring seamless experience across desktop, tablet, and mobile devices
- **Tech Stack:** React.js, Tailwind CSS, Context API, RESTful APIs, PHP, Laravel

Istikbal Elite | Furniture E-commerce Platform

Live — exabyte-eg.com/istikbal

- Created specialized furniture e-commerce platform with advanced product categorization, multi-filter system, and detailed product views across 8 furniture categories
- Designed intuitive navigation and search functionality with autocomplete to enhance user shopping experience
- **Tech Stack:** React.js, Tailwind CSS, Ant Design, RESTful APIs, PHP, Laravel

Sarar Egypt | Fashion E-commerce Platform

Live — sararegypt.com

- Developed a fully responsive e-commerce platform for Sarar Egypt, a premium Turkish menswear brand, featuring product catalog browsing, category filtering, and a seamless shopping experience across multiple device sizes
- Implemented product listing pages, detailed product views, shopping cart functionality, and checkout flow integrated with backend APIs for real-time inventory and order management
- **Tech Stack:** React.js, Tailwind CSS, Ant Design, RESTful APIs, PHP, Laravel

Obour Party | Event Management Application

Live — exabyte-eg.com/obour-party

- Engineered full-stack event management system with user portal and admin dashboard for event creation, booking management, and attendee tracking for 50+ events
- Developed backend API with Node.js/PHP handling JWT authentication, CRUD operations, and business logic
- **Tech Stack:** React.js, Vite, Tailwind CSS, RESTful APIs, SQLite, PHP, Laravel

Technical Skills

Programming Languages: JavaScript (ES6+), TypeScript, PHP, HTML5, CSS3, JSX, SQL

Frontend: React.js, Next.js (App Router, Pages Router), React Native, React Hooks, React Server Components, Server Actions, Suspense, Custom Hooks, React Router

Backend: Node.js, PHP, Laravel, Next.js Route Handlers/API Routes, RESTful API Design, GraphQL, MVC Architecture, Server Actions

Database & ORM: Drizzle ORM, Drizzle Kit Migrations, Neon Serverless Postgres, PostgreSQL, MySQL, Firebase Firestore, MongoDB, SQLite, LocalStorage, IndexedDB

State Management: Redux Toolkit, Context API, Zustand, Recoil, React Query for Server State

Authentication & Security: Better Auth, Firebase Auth, JWT, OAuth 2.0, Session Management, Protected Routes, Role-Based Access Control

Payments & Integrations: Stripe (Checkout, Payment Intents, Webhooks), Payment Gateway Integration, Order & Subscription Flows

CSS Frameworks & Libraries: Tailwind CSS, Bootstrap, Material-UI (MUI), Ant Design, shadcn/ui, Styled Components, CSS Modules, CSS Grid, Flexbox, SASS/SCSS

Internationalization: i18n, next-intl, Multi-language Support, RTL/LTR Layouts, Locale Routing

Version Control: Git, GitHub, GitLab, Git Flow, Pull Requests, Code Review, Merge Strategies

API Integration: RESTful APIs, Axios, Fetch API, Webhooks, Postman, API Documentation

Build Tools & Bundlers: Vite, Webpack, Turbopack, Rollup, npm, Yarn, pnpm, Babel, ESLint, Prettier

Animation Libraries: Framer Motion, React Spring, AOS (Animate On Scroll), GSAP

Design Tools: Figma, Adobe XD, Photoshop, Sketch, Zeplin, InVision

Performance Optimization: Code Splitting, Tree Shaking, Lazy Loading, Dynamic Imports, Memoization, Core Web Vitals (LCP, CLS, FID), Lighthouse, Bundle Analysis, Image Optimization

SEO & Web Standards: Meta Tags, Semantic HTML, Structured Data (JSON-LD), Sitemap Generation, Open Graph, Schema Markup, Server-Side Rendering (SSR), Static Site Generation (SSG), Incremental Static Regeneration (ISR)

Accessibility: WCAG 2.1, ARIA Attributes, Semantic HTML, Screen Reader Compatibility, Keyboard Navigation

Progressive Web Apps: Service Workers, Web Manifest, Offline Support, Push Notifications, PWA Optimization

Development Methodologies: Agile, Scrum, Kanban, CI/CD, DevOps, Responsive Design, Mobile-First Approach, Atomic Design, Component-Driven Development

Testing: Jest, React Testing Library, Cypress, Playwright, Cross-Browser Testing, Integration Testing, E2E Testing

Additional Tools: Netlify, GitHub Actions, npm Scripts, Storybook, Chrome DevTools

Education

Capital University

05/2018 – 05/2022

Bachelor of Commerce in Management Information Systems (MIS)

Cairo, Egypt

Languages

Arabic: Native Proficiency

English: Professional Working Proficiency
