Professional Summary

Full Stack Developer with 2+ years of experience building production web applications with PHP/Laravel on the backend and React.js/Next.js on the frontend. Strong in RESTful API design, MVC architecture, MySQL/PostgreSQL, JWT/Sanctum/OAuth authentication, RBAC, and Stripe/Fawry payment integration. Delivered e-commerce and LMS platforms serving 10,000+ users while collaborating in fast-paced Agile teams.

Professional Experience

Full Stack Developer **06/2024 – Present**
Exabyte LLC *Cairo, Egypt*

- Built 5+ production applications, including Temry Market (e-commerce) and Learnu (LMS), with React.js, Next.js, Ant Design, and Tailwind CSS, serving 10,000+ active users
- Designed and developed RESTful APIs with PHP and Laravel (MVC), using Eloquent ORM, migrations and seeders, API Resources, and Form Request validation
- Implemented authentication and authorization with Laravel Sanctum/JWT, middleware, policies and gates, and RBAC, applying protections against SQL injection, XSS, and CSRF
- Designed normalized MySQL schemas and optimized queries with indexing and eager loading (avoiding N+1); implemented queues, jobs, and webhooks for background processing and payment status updates
- Integrated APIs with Axios and React Query, implementing caching, error handling, and optimistic updates that reduced API calls by 30%
- Translated Figma and Adobe XD designs into pixel-perfect, mobile-first, WCAG 2.1-compliant interfaces across 15+ pages using atomic design
- Improved Core Web Vitals (LCP, CLS, INP) through code splitting, lazy loading, and image optimization, achieving a 50% improvement in scores and 25% higher user engagement
- Collaborated daily with an Agile/Scrum team of 8+ using Git, GitHub, pull requests, code reviews, and GitHub Actions CI/CD to deliver sprint goals on schedule

Freelance Experience

Freelance Frontend Developer **07/2026 – 09/2026**
Taseese Online (K-12 Online Tutoring Platform) *Remote*

- Improved SEO, performance, and accessibility of the production platform through Lighthouse audits
- Connected frontend features to backend APIs, using Requestly to mock requests and responses during testing
- Refactored the codebase into smaller reusable components and functions for a cleaner, more maintainable architecture

Tech Stack: React.js, TypeScript, Vite, Requestly, Lighthouse Live: taseese-online-web-app.vercel.app

Technical Projects

Temry Market | *E-commerce Platform with Admin Portal* **Live: temryshop.com**

- Delivered a storefront and admin dashboard managing a 500+ product catalog, cart, checkout, and the full order lifecycle for a live online store
- Built Laravel REST APIs with Eloquent ORM and MySQL to keep products, orders, and inventory synchronized in real time
- Integrated Fawry payments and Cash on Delivery (COD), giving customers flexible and reliable checkout options

Tech Stack: React.js, Tailwind CSS, Ant Design, PHP, Laravel, MySQL

PizzaCraft | *Full-Stack Restaurant Ordering & E-commerce Platform* **Live Demo | GitHub**

- Built a full-stack ordering platform with Next.js App Router and React Server Components, featuring a filterable menu, cart, favorites, and time-limited combo deals with a live countdown timer
- Secured user accounts with Better Auth (email/password, social sign-in, protected routes) on a type-safe Drizzle ORM and Neon Postgres data layer with versioned migrations
- Enabled secure Stripe Checkout with webhook-driven order confirmation, plus English/Arabic support with full RTL layout, optimized Core Web Vitals, and CI/CD deployment on Vercel

Tech Stack: Next.js (App Router), React.js, TypeScript, Tailwind CSS, Better Auth, Drizzle ORM, Neon Postgres, Stripe, i18n (RTL), Vercel

Learnu | *Learning Management System* **Live: exabyte-eg.com/learnu**

- Delivered an LMS supporting enrollment for 200+ students, progress tracking, and an instructor analytics dashboard
- Secured role-based access (RBAC) for students, instructors, and admins through Laravel APIs backed by a relational MySQL schema
- Ensured an accessible, responsive experience (WCAG) across desktop, tablet, and mobile

Tech Stack: React.js, Tailwind CSS, Context API, PHP, Laravel, MySQL

Istikbal Elite | *Furniture E-commerce Platform* **Live: exabyte-eg.com/istikbal**

- Created a furniture e-commerce platform with product categorization and a multi-filter system across 8 categories
- Improved product discovery with intuitive navigation and search with autocomplete
- Connected the React frontend to Laravel REST APIs for products, categories, and filters

Tech Stack: React.js, Tailwind CSS, Ant Design, PHP, Laravel, MySQL

Sarar Egypt | *Fashion E-commerce Platform* **Live: sararegypt.com**

- Developed a fully responsive e-commerce platform for a premium menswear brand with catalog browsing and category filtering
- Implemented product pages, cart, and checkout integrated with Laravel APIs for real-time inventory and orders
- Built reusable Ant Design and Tailwind CSS components for a consistent look across pages

Tech Stack: React.js, Tailwind CSS, Ant Design, PHP, Laravel, MySQL

Obour Party | *Event Management Application* **Live: exabyte-eg.com/obour-party**

- Engineered an event management system with a user portal and admin dashboard for booking and attendee tracking across 50+ events
- Built a Laravel backend API handling JWT authentication, CRUD operations, and business logic
- Delivered a responsive React interface (Vite, Tailwind CSS) for browsing events and managing bookings

Tech Stack: React.js, Vite, Tailwind CSS, SQLite, PHP, Laravel

Technical Skills

Languages: JavaScript (ES6+), TypeScript, PHP 8, SQL, HTML5, CSS3
Frontend: React.js, Next.js (App Router), React Server Components, Server Actions, Redux Toolkit, Zustand, Context API, React Query
Backend: Laravel, Eloquent ORM, Middleware, Form Requests, API Resources, Queues & Jobs, Task Scheduling, Service/Repository Pattern, Node.js, RESTful API Design, MVC, OOP, SOLID, Caching, Rate Limiting, Pagination, Composer
Databases: MySQL, PostgreSQL, Neon Serverless Postgres, SQLite, MongoDB, Drizzle ORM, Migrations & Seeders, Query Optimization, Indexing
Authentication & Security: Laravel Sanctum, Better Auth, JWT, OAuth 2.0, RBAC, Policies & Gates, CSRF/XSS/SQL Injection Prevention
Payments & Integrations: Stripe (Checkout, Webhooks), Fawry, Cash on Delivery, Axios, Postman, Requestly
UI & i18n: Tailwind CSS, Ant Design, shadcn/ui, Material-UI, Bootstrap, SASS/SCSS, next-intl, RTL/LTR
Performance, SEO & Accessibility: Core Web Vitals, Lighthouse, Code Splitting, Lazy Loading, SSR, SSG, ISR, JSON-LD, WCAG 2.1, ARIA
Tools & Testing: Git, GitHub, GitHub Actions, Vite, Webpack, ESLint, PHPUnit, Jest, React Testing Library, Cypress, Playwright, Figma, Adobe XD, Storybook, Vercel
Methodologies: Agile, Scrum, Responsive Design, Mobile-First, Atomic Design
Soft Skills: Communication, Teamwork, Problem-Solving, Adaptability, Ownership

Education

Capital University **05/2018 – 05/2022**
Bachelor of Commerce in Management Information Systems (MIS) *Cairo, Egypt*

Languages

Arabic: Native
English: Professional Working Proficiency
